

# DBR Visuals - Services

## **Website Design**

DBR Visuals can design a website for you that will be tailored to you and your needs. We specialize in creating custom designs and layouts that reflect you or your company personality. We can build a very cost effective method for you to advertise, inform, communicate, or entertain your target audience. Our website designs can range from a very simple and inexpensive layout to the more advanced dynamic site to really grab some attention.

## **Domain Name Registration**

DBR Visuals will help you acquire your own domain name and get it registered. We can save you the time and hassle of searching over and over again to find a name that fits, but has not already been registered by someone else. We will do the leg work for you by conducting the search and then presenting you with a number of options for your approval. Once we find the name you like, we will gather your information and register your new domain.

## **Website Hosting**

DBR Visuals can set up your website with a server to host your website. There will be no hassle and no fuss at all for you. We can take care of everything involved here. These servers are guaranteed to be online at all times, there is even a backup server to keep things going if the primary ever happened to fail or need maintenance. This means that your website will be up and running smoothly at all times. Along with the hosting service you will receive at least the basic website maintenance as shown below in Webmaster Services.

## **Webmaster Services**

DBR Visuals can provide website maintenance and webmaster services to you for reasonable rates. With our website hosting, you will receive at the very minimum, our maintenance service which includes scheduled review of the site to locate any problems that may arise, such as dead links to pictures, external sites, video, etc. We can also keep the site fresh with updated content or make changes as required by the client. Keeping your website active and current is of great importance to businesses, as this can greatly affect your position on the search engine ranking. If your site is for informational purposes, we can easily and quickly take care of any updated to text, pictures, video, or really anything you need! Our professionals can quickly access your site and make the changes very efficiently, but without the risk of damaging the look or layout of your site. We take pride in getting those updates done for you on time and without error.
